LT BLU

A - RED/PUR
B - LT BLU
C - GRN/WHT

A hand-drawn diagram of a hexagonal structure. In the center is a blue circle. Surrounding this is a black hexagon. Above the hexagon, the word "TRAITOR" is written in black capital letters, with the "T" and "R" extending outside the top corners of the hexagon. The entire hexagon and central circle are enclosed within a larger red circle. To the left and right of the central hexagon, there are two small blue circles, one on each side.

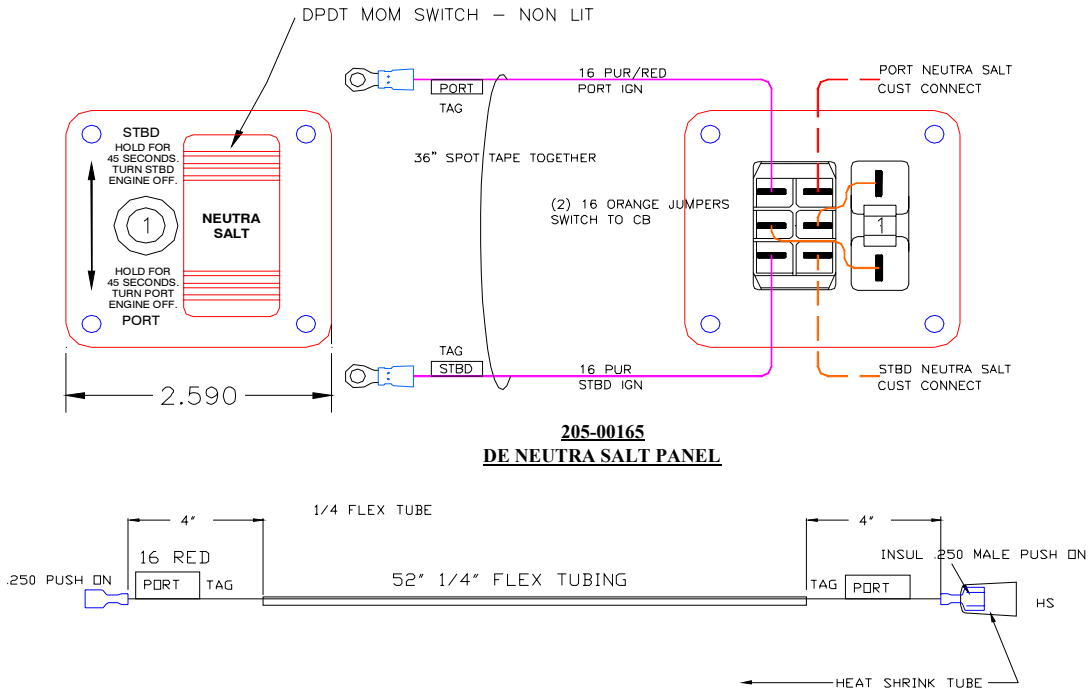

Diagram of a battery cable assembly for a trim pump. The assembly consists of a central 134" long, 1/2" diameter aluminum tubing. On the left end, there are two 1/4" rings: one red (labeled "8 RED") and one yellow (labeled "8 YEL"), both with 5/16" rings attached. These are connected to a "NEG STUD ON TRIM PUMP". On the right end, there is a red 184090F -90 AMP HI AMP BREAKER. The breaker has two 1/4" rings with red boots attached. One red boot is connected to a 16" long, 3/8" diameter tubing with an 8 RED ring, which is then connected to a "POS BATT POST" with a 3/8" ring. The other red boot is connected to a 16" long, 3/8" diameter tubing with an 8 YEL ring, which is then connected to a "NEG BATT POST" with a 3/8" ring.
