# Thank you...

...for considering a new Grady-White boat for your family! We sincerely appreciate your interest. We hope this publication introduces both our products and the unique "Grady Life" experience. But a printed catalog only scratches the surface. We have so many other rich resources of information. Our popular website includes the latest specifications, performance reports, video galleries, virtual tours, customer tips, wonderful customer photo galleries, Grady-White Clubs information, dealer locators and much, much more. Opt in for the great resources found in our publications, *Anchorline* and *Docklines*, too! See and share the experience of owners and enthusiasts on our *Facebook* page and *@GradyLife* on *Twitter*. Download our iPhone app at iTunes. As always, the best resources for information are our tops-in-the-business Grady-White dealers and other Grady customers. We urge you to talk with them!

Together, the entire Grady-White team focuses on providing exceptional enjoyment and terrific value as part of our larger goal of delivering the ultimate boating experience. It's very satisfying work, creating great new products and refining our well-proven winners, knowing that Grady-White boats will bring many lifelong memories to our customers. We come to work excited to achieve what we are striving to accomplish, and leave very satisfied at the end of the week knowing we've met the mark. That is why we invest in exciting new products such as our show-stopping, unlike-any-other *Freedom 335* as well as the spacious *Freedom 285* dual consoles, and incrementally improve

every one of our 27 models from the 18-foot center console *Fisherman 180* to the exquisite 36-foot *Express 360* cabin boat and the downright awesome *Canyon 366* center console. There is an incredible variety of superbly engineered Grady-Whites. Without a doubt there is one that's absolutely a perfect match for you.

One of the most rewarding results of Grady-White's one-to-one, long-term relationship with dealers and customers is the advent and growth of our Grady-White Clubs. We love them and so will you! Some of our Clubs began spontaneously from dealer and owner interest, some blossomed from strong leadership, and all grew from offering individuals confidence to embark with a group on excursions and special events that are just pure fun! We are amazed by the number of creative opportunities our Clubs offer. Grady-White dealers strongly support the growth of existing Grady-White Clubs and creation of new ones. Learn about our Clubs in your area and follow their activities on our website. Joining a Grady-White Club makes a fantastic boating experience even better!

For model year 2013, we continue to emphasize our innovative *Freedom Series* – eight versatile dual console models that bring a new level of "freedom" to the range of activities you can enjoy on big water. Our *Freedom Series*, like all Grady-Whites, are great riding, saltwater tough, safe and sure, and filled with features that allow you to enjoy so many activities well. Rest assured, we have not forgotten our legendary saltwater fishing heritage. Every Grady-White is a superb fishing boat. If big water fishing or cruising is your passion, there is no better choice than a Grady-White. You'll be in the best riding boat on the water. In short, you'll be exceedingly happy with your new Grady-White!

Grady-White eagerly looks to the future. We know that for quality, safety, reliability, value and the ultimate in boating satisfaction, a Grady-White will always be in a class all its own. Visit your local dealer! Happy boating!

# The Grady Life connects family and friends and makes long-term memories like no other recreational activity.

**The Grady Life experience** offers you, your family and friends the ultimate in boat ownership. Grady-White boating is all about making memories. Whether your crew is very young or teenaged, young adult or a cross-generation of parents and grandparents, no activity can match the variety and meet the needs of different age groups than boating on a Grady-White. With boats this incomparably reliable and versatile, everyone can “do their own thing” yet be together. Swimming, diving, all kinds of fishing, exploring, raft-ups, lunch or dinner cruises, camp-outs, wakeboarding and water skiing or just “sunnin’ and funnin’”—these activities just scratch the surface of what Grady owners enjoy. No other outdoor recreation compares in diversity and fellowship with the Grady Life. You will feel confident and free to enjoy many adventures, and reap enormous rewards. Our great dealers make your experience as carefree as possible!

Grady customers enjoy higher satisfaction primarily because of the company and dealers’ commitment to providing the ultimate boating experience. The values, principles and systems with which we’ve operated for over 50 years, and the resulting relationships, help assure decades-long owner loyalty.

Grady-White and Grady-White dealers aim for customer satisfaction that exceeds all expectation. Read or watch our customer testimonials online. Visit [gradywhite.com](http://gradywhite.com) often and view the Grady Life photos, or take a peek at our growing collection of fun and useful videos. Our customers love to share stories about their great Grady moments, and how well their boats perform! These reflections are not the only benchmarks of owner enjoyment. Every third-party

“We travel together to the Bahamas, do raft-ups, and gather for dining at restaurants. Right now we have three fishing tournaments including one for the ladies. We gather on sand bars, and enjoy picnicking and being together. Our Club is a very social and very rewarding experience.”

measure ever conducted in our industry for our category has ranked Grady-White Boats at the highest levels.

There are many annual Grady-White dealer events including tournaments, cruises and fishing schools. The fabulous Grady Fest that took place for the third year in 2012 is a fantastic celebration of the boating lifestyle. Grady-White owners share camaraderie and much, much more throughout the year. There’s a tremendous online resource center found at our website that includes interesting customer tips about destinations, travel, cooking aboard, fishing, and customizing and maintaining your boat. The employees and associates of our privately held company—often with relationships that span many decades—actively keep in touch with you to hear about your great Grady days, and delight in sharing stories about your good times on and in the water!

## Grady-White: Historic highlights of a customer- and quality-focused company

### 1959

Glen Grady, Don White begin building small, tough, high quality wooden “works of art” for coastal boating that perform even in rough seas.

### 1968

Eddie Smith purchases Grady-White and completes the changeover to fiberglass production.

### 1972

Ground breaks for what remains today one of the most modern boat manufacturing facilities in the world.

### 1975

Grady-White introduces the *Hatteras 204-C Overnighter*, the company’s first walkaround model.

# Grady-Built: The finest materials for built-in value and security

**A Grady-White is no ordinary craft.** Our 316 grade stainless steel hardware is superior to 304 grade because of the nickel and chromium in the alloy, plus molybdenum. Cast parts are passivated in acid to remove casting impurities, then buffed,

then passivated and buffed again. We test sample batches in our "instant ocean" salt bath. The result is hardware that's strong and durable even after years in a saltwater environment.

Whether we utilize a traditional glass laminate or a new composite or core material depends on the application. No matter which material we select, Grady-White's extensive in-house and on-the-water tests ensure long lasting value. Cabins are handsome, with eye-pleasing fabrics. We test all appliances including microwaves, refrigerators, satellite radios, TVs, MP3 stereo output devices and DVD players. Fixtures are the best available.

Resin transfer molded (RTM) parts such as fish box lids, hardtops and bow pulpits are solid and durable. RTM is especially preferable for fish box lids because the smooth underside surface is easier to clean than the rough glass painted surfaces found on competitors' products.

*Our patented fold away aft bench seat is a result of our process of seeking customer advice on the kinds of material and detail that work best. Hardware and fixtures are placed right where you need them.*

*The helm area is ergonomically designed and comfortable for ease of function and safety. The horn is the red button so you can find it quickly. The windshield is engineered to enhance your field of vision and sight lines. Always safety first on a Grady-White!*

Gunwale mounted rod holders are impervious to UV rays, and extra durable. Rod racks are sturdy and easily accessible. Super strong, durable polyethylene trim work and toe rails are tough, low maintenance and their good looks last. Grab rails, handholds, handles, swim ladders and transom door latches are battleship-tough as are cleats and bow and stern eyes. Stainless steel drink holders are easy to clean. Durable materials give years of trouble-free use and that means a lower cost of ownership.

**1982**

Grady-White's *Sailfish 25* ushers in the era of smaller outboard-powered offshore sportfishing boats.

**1989**

The *Marlin 28* introduces the SeaV<sup>2</sup>® hull, designed by C. Raymond Hunt Associates, delivering a soft, dry, true-tracking ride plus stability at lower speed.

**1993**

Kris Carroll, a Grady-White veteran, is named as Grady-White's new president.

**2001**

In the first J.D. Power and Associates study of the marine industry, Grady-White ranks "Highest in Customer Satisfaction with Center Console Boats."

Customers tell us they like different seating choices, and no other brand offers as many options as Grady-White. Whether you opt for available flip-up bolsters (pictured at left), Deluxe seating (see options pages) or choose our standard seating, everyone will be very comfortable aboard your new Grady-White!

## Grady-Built: Built by craftsmen and superbly engineered through customer input

**The people** who design and engineer Grady-Whites are avid boaters themselves. Through ongoing contact with our boat owners, we create customer-driven designs that are constantly refined and thoroughly tested along the North Carolina coast to ensure superb performance in the toughest conditions.

*Our latest plant expansion further improved the most productive, efficient and completely integrated boat building facility in the world today. This functionality assures the highest product quality and longest lasting value for our customers.*

Our production professionals are real craftsmen. Hand laid fiberglass provides an unmatched laminate structure. Only 100% hand lay-up assures a uniform thickness for strength and structural stiffness. Grady-White uses this tried and true method, fitting patterned pieces of fiberglass to deliver consistent laminate thickness on every boat. The resin for every part is metered and measured so each has an optimal glass-to-resin ratio. Stringer systems are precision cut by computerized router and then glassed in while the hull is still in the mold so your SeaV<sup>2</sup>® hull retains the correct shape. Our proven stringer grid system is consistently strong, light, phenomenally durable, and has a limited lifetime warranty. Closed cell foam sprayed in between the stringers adds strength and augments flotation.

Super strong transoms are not only solidly Grady-Built of the strongest materials, but also reinforced with an angled aluminum brace to provide sure support for today's four-stroke engines. This bracing supports the top motor hole mounts, distributing torque throughout the transom.

At the helm threshold of our cabin models, decks are joined to liners with double through bolting. Aft of the seat boxes, another through-bolted and fiberglassed system forms a "box grid" to secure the deck and liner together, giving Grady-Whites support not found in other boats. All these factors add up to many years of enjoyment!

*Skilled craftsmen apply hand laid fiberglass with precisely the right thickness and resin ratios. Top quality components assembled with skill result in quality, reliability and performance over the long haul.*

### 2002

*Express 330* named *Boating Magazine* "Boat of the Year." Grady-White ranks "Highest in Customer Satisfaction With Coastal Fishing Boats Two Years In A Row."

### 2003

Plant expansion provides customers with even greater quality and value. Grady-White ranks "Highest in Customer Satisfaction With Coastal Fishing Boats Three Years In A Row."

### 2005

*Express 360* introduced, setting new benchmark for boating. Grady-White ranks "Highest in Customer Satisfaction With Coastal Fishing Boats Four Times in A Row."

### 2007

*Express 305* introduced. *Canyon 336* debuts, incorporates cabin comfort in a center console. Grady-White ranks "Highest in Customer Satisfaction With Coastal Fishing Boats (17-28 feet) Six Times in a Row."

Look carefully at a Grady-White running. You can actually see three wakes coming off the hull. This is a reflection of the smooth, dry trademark Grady-White SeaV<sup>2</sup>® ride.

# Grady-Built: Our exclusive SeaV<sup>2</sup>® hull design is the ultimate in offshore performance.

## There is no ride like Grady-White's.

Often imitated but never equaled, our exclusive SeaV<sup>2</sup>® hull offers the industry's best combination of dryness, seakeeping performance and speed. Grady-White factory rigs four-stroke engines exclusively so the SeaV<sup>2</sup> hull and fuel tank position

are especially well balanced for optimum performance of these new power sources. Unlike other brands, a SeaV<sup>2</sup> hull design has no two places on the keel where the deadrise is the same. The vee continuously sharpens from the

transom to the bow stem. A SeaV<sup>2</sup> hull design with 20 degrees of deadrise at the transom will have around 30 degrees amidships—more than even the most radical older deep vee designs. The deeper vee forward means a softer ride at sea. Less vee at the transom coupled with wide chines provide stability at rest and when trolling.

A SeaV<sup>2</sup> hull tracks as if the boat is on rails. The series of wedges that form a SeaV<sup>2</sup> hull have tremendous righting force providing incredible tracking in quartering seas and especially in following seas. There are no rounded shapes to behave like a ball in the water that has no upright position.

Strakes and chines knock the spray down cold. Check the spray coming off a SeaV<sup>2</sup> hull. You can actually see three bow wakes in smooth water. Those are the individual deflectors working. This is the reason SeaV<sup>2</sup> hulls are drier running than boats with rounded sections that blow spray past the strakes and chines and into the cockpit.

Grady-White delivers a deep vee ride with modified vee efficiency. Unlike other deep vee hulls, SeaV<sup>2</sup> hulls provide a soft ride without fuel efficiency loss. A SeaV<sup>2</sup> hull slices through seas effortlessly with a sharp point of entry, and the varying deadrise builds buoyancy that lifts the boat as it proceeds through waves. The result: better performance.

## 2009

Grady-White celebrates 50th anniversary. Ranks "Highest in Customer Satisfaction With Coastal Fishing Boats (17-30 feet) Eight Times in a Row."

## 2010

*Fisherman 230* and *Canyon 366* debut; center consoles 28'-36' become *Canyon Series*. 2010 NMMA CSI (9th in a row) continues unbroken string of every industry award for customer satisfaction.

## 2011-2012

*Freedom Series* featuring the new 28-foot *Freedom 285* gives customers the industry's largest selection of fish-and-cruise dual consoles. Grady center consoles 18'-25' now comprise *Fisherman Series*.

## 2013

Grady-White's stunning 33' *Freedom 335* is the next generation dual console, a roomy, elegant cruiser and stylish big water fishboat that's a leap ahead of the industry in boating versatility with many never-before-seen features.

# The ultimate in boating satisfaction. The ultimate in versatility, ease of use, comfort, safety and convenience.

1. **The bow anchor locker** allows quick access to the anchor for safety. Many models have power windlasses with remote switches.
2. **Flush mount electronics areas** are standard on most models.
3. **Comfortable seating** throughout the boat is second to none. Our deluxe seating is fully adjustable for additional comfort. Flip up seat bolsters are available on many models.
4. **Sound systems** are available on nearly all Gradys. They are standard on our larger models.
5. **Dry storage.** Every Grady has plenty, just what you need to enjoy many activities on the water. Room for tow tools and toys, fishing and dive gear, picnic supplies, towels, extra clothing, personal items and more.
6. **Easy to maintain and clean, stainless steel lined drink holders** are everywhere you need them. Convenient, and fewer slippery spills for safety!
7. **Storage nets** are easy to use, easy to get to and perfect for stowing lots of items you can see and quickly locate, especially personal flotation devices (PFDs) in the bigger nets!
8. **Enclosed head area.** Every Grady-White 20 feet and over offers a head or head option. That's great comfort for all-day adventures.
9. **Toe rails** are easy to maintain and provide additional safety when you lean over the gunwale.
10. **Take the rods along every trip!** There's room for plenty of rods on every Grady-White. Cabin models, T-tops and hardtops often have additional rod racks.
11. **Patented fold away aft seating** is available on most models, opening up more cockpit room. Big cockpits are a Grady-White feature.

Shown with optional features

12. **Grady-White's nonskid surfaces** are everywhere you step and really provide traction.
13. **Tackle storage** and rigging areas are located on most models.
14. **Insulated ice boxes and fish boxes** drain directly overboard by gravity on every Grady-White.
15. **Handholds** are where you naturally reach.
16. **Safety windshield** (some models have unbreakable acrylic)
17. **True self-bailing** boat directs water overboard by gravity whether at rest or underway. All scuppers drain overboard. Inspection ports are watertight. All Grady-Whites have automatic bilge pumps, with two pumps on most models over 20 feet. Our dedication to self-bailing cockpit integrity is unparalleled.
18. **All Grady-Whites have foam sprayed into the hull for level or basic flotation**, even though not required in boats 20 feet and over. This foam also adds strength, thermal insulation and deadens sounds. There is no boat brand with better flotation properties.
19. **Through-bolted 316 stainless steel hardware** is secured with locking nuts.
20. **Heavy-duty fiberglass transom door** is not only for big fish, but is a safety feature and provides easy access for tow sports, swimming, snorkeling, and more. Solid, 316 stainless transom door hardware is highlighted by a destroyer-sized latch with a positive locking mechanism for added safety.
21. **Aluminum transom brace** is bonded to the top of outboard transoms, which reinforces transom strength and distributes motor torque. On integrated bracket models, the brace is through bolted to the longitudinal stringer system.
