

T-top Bonnet Installation Guide

1. Locate the royal blue webbing strap on the front of your T-top bonnet.
2. Standing in front, place bonnet on top of your T-top with the royal blue strap facing forward.
3. Pull bonnet over your T-top towards the rocket launchers (or back).
4. Connect rear webbing straps to the rocket launchers or T-top frame.
5. Locate draw rope ends underneath on both sides, pass loop through other loop and tie a slip knot.
6. Make sure the T-top bonnet wraps under the T-top frame.
7. Use connector straps to secure bonnet to the T-top frame. Do not over tighten straps.
8. Pipe insulation (not supplied) should be used to cover any equipment which has a sharp edge that might cut through the cover.

This is not a travel cover.
