RNR-Marine Gear Loft Storage for Shadow Folding T-Tops

Charleston, SC, March 2, 2011 -- RNR-Marine® announces the “**Shadow Gear Loft**” storage option for its **Shadow**® folding t-tops for center console and rigid inflatable boats.

The **Shadow Gear Loft** laces under the rear half of the **Shadow T-Top** frame providing overhead storage for 3 or 4 adult life preservers (PFDs), towels or other light gear. The loft is made of open-weave **PhiferTex**® PVC-coated polyester by Phifer, Inc.®, allowing gear to breath and stay dry and mildew free. The loft rotates forward with the top when lowering for storage in the garage.

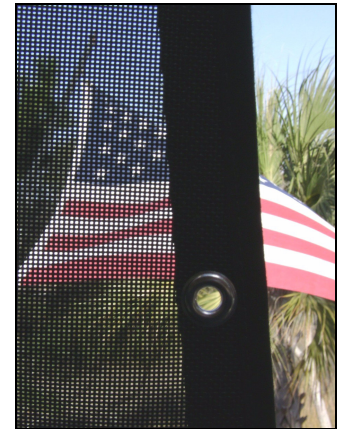

*“The **Shadow Gear Loft** came in response to our recent successful release of the **T-Topless** and **Montauk-T-Topless Gear Loft**, as many **Shadow** owners called and requested storage for their life preservers and other light gear. The Gear Loft frees up valuable storage compartments for other gear such as tackle, lines, food or coolers,”* said RNR-marine’s president, Ross Johnson.

Shadow T-Top with Gear Loft

Shadow Gear Loft with 3 PFDs

PhiferTex® Breathable Mesh

The **Shadow Gear Loft** is now available for \$99 (includes lacing and instructions) on RNR-Marine’s web site: <http://RNR-Marine.com/Shadow.shtml#Gear-Loft> and takes about 20 minutes to install.

About RNR-Marine

Founded in 2004 by engineers with a passion to improve the products they use, RNR-Marine is committed to providing American-made “**Unique Products for Demanding Boaters**”. RNR-Marine designs and manufactures the patent-pending **Shadow**® (<http://ShadowTop.com>), **T-Topless**® (<http://T-Topless.com>) and **Montauk-T-Topless**® (<http://Montauk-T-Topless.com>) folding, stainless steel T-Tops. Available in 16 different sizes/models to fit most 15 to 21 foot center console and rigid inflatable boats, these tops install in minutes on the boat’s windshield grab rails without drilling ANY holes in the boat. The tops then fold down in seconds (or remove in 5 minutes) to fit the boat in a garage, saving the owner \$1,000’s per year in storage fees.

RNR-Marine also manufactures the Flats-Top (<http://Flats-Top.com>) shade for flats-boats and skiffs.
