

TRITON™ BOAT COMPANY, L.P. 2004 FIBERGLASS BOAT LIMITED WARRANTY

THE FOLLOWING EXPRESS WRITTEN WARRANTY IS IN LIEU OF ANY AND ALL OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED. TRITON BOAT COMPANY, L.P. (THE "COMPANY") DOES HEREBY DISCLAIM ANY AND ALL IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE AND DISCLAIMS ANY AND ALL LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF OR RELATING TO THE USE, OWNERSHIP, TRANSPORTATION OR SERVICE OF THE COMPANY'S PRODUCTS.

Triton™ Boat Company, L.P. warrants that each of its fiberglass Triton™ Boats will be free from defects in material and workmanship under normal operating conditions. The Company will repair or replace parts covered under this warranty that are found to be defective in original material or workmanship, which shall be the Company's sole obligation with respect to defective parts or products.

This warranty is extended to the original retail purchaser and only applies to boats sold through an authorized Company Dealer. This warranty will become effective upon receipt of a properly completed warranty registration card by the Company at its main office. This warranty may be transferred to a second owner for any remaining warranty term through an authorized Company Dealer for a \$100.00 charge. Such a transfer requires that a completed warranty transfer form, along with the transfer fee, be returned to the Company. Any transfer must occur within the first five (5) years following the original retail sale.

Note: For any service sought pursuant to this limited warranty after the first year of this limited warranty, the owner must pay a deductible of \$50.00 per claim to the servicing dealer for the performance of the warranty service.

The following items are structurally warranted to the original owner for the lifetime of the boat. These items are also warranted to a transfer owner for a period of ten (10) years from the original date of sale to the first original owner:

1. Hull
2. Stringers
3. Transom

The following factory installed items are covered for a warranty term of three (3) years:

1. Instrumentation
2. Boat wiring harness and switches
3. Fuel tanks
4. Deck hardware
5. All boat lights, aerators, bilge pumps, hoses, clamps and fittings
6. Steering head and cables
7. Surface temperature gauges and depthfinders

THE FOLLOWING ITEMS ARE NOT COVERED UNDER THIS LIMITED WARRANTY:

1. Engines, outdrives, controls, propellers, trolling motors or other equipment or accessories manufactured by other companies which provide their own individual warranties
2. Windshield breakage
3. Damage, failure or other problems with the boat's finish, such as cracks, craze, stars, fading, chalking, blistering or fading in color
4. Damage to or failure of (such as tears or fading) upholstery, carpet and any other soft goods
5. Installation of engines or other accessories not performed by the Company
6. Removal and/or derigging of engines or accessories
7. Any damage caused by accident or resulting from alterations, abuse, commercial use, misuse or negligence of any Company product. Use of a Triton™ Boat powered or loaded in excess of maximum limits as stated on the U.S. Coast Guard Capacity Plate in each boat, is misuse and will result in cancellation of any warranty.
8. Damages resulting from racing or use of the boat for speed or endurance contests. Use of the boat for racing or any speed or endurance contest is misuse of the boat and will result in cancellation of any warranty.
9. Damages resulting from failure to perform periodic maintenance to the Company Products in accordance with the Company's recommendations.
10. Damages caused by improper trailer or mismatching of a boat to a trailer or failure to properly secure a boat to trailer or use a lower unit support device when trailering.
11. Transportation to and from the Dealer or factory for warranty repair, including towing expenses, haul out expense, loading or crane expense. It is the OWNER'S responsibility to provide transportation of the boat both to service location and its return after repairs are completed.

The following items are not warranted by the Company in any way, although the Customer may be entitled to certain warranties from the respective manufacturers of such items.

Engine, engine controls and harness, trolling motors, instruments, battery chargers, navigation equipment, batteries, trailers and trailer accessories, electronics/depth finders and radios/stereos.

The Company may modify, improve, or discontinue the design, specifications or models with respect to any Triton Boat at any time and will not be obligated to make any such changes in any boats previously manufactured. All terms of this Warranty are severable and the invalidity or unenforceability of any portion hereof shall not affect the validity or enforceability of the remaining provisions of this Warranty.

"Features, Options and Specifications on any product pictured or described herein may vary from actual features and specifications on Triton products. We disclaim any and all liability for any errors or omission contained herein."

Setting the pace...
thru innovation

We build innovation

Innovation has been a hallmark of Triton Boats since we first began manufacturing fiberglass fishing boats. While our competition was content to build their boats the traditional way, with wood in key structural areas, Triton's revolutionary Tri-Core composite construction totally eliminated wood (and the possibility of rot), allowing us to offer a lifetime warranty on our hulls and transoms. America's anglers were quickly won over to Triton's advanced construction, fishability and performance, and soon the rest of the boating industry was playing catch-up. For 2004, Triton's dedication to innovation is evident in our new X Series tournament bass boats. These "X-citing" boats have been engineered from the ground up to conquer bass fishing's most extreme conditions, and include groundbreaking features such as our retractable Res-Q Boarding Ladder, which was recently honored by the National Safe Boating Council with its prestigious Life Saving Innovation Award. B.A.S.S. founder Ray Scott has called our Res-Q ladder "the most important safety innovation since the engine kill switch." As this goes to press it's already saved one life, and we're certain it'll save more.

But Triton's innovation doesn't end at the production line. Our Triton Gold Tournament Bonus Program rewards Triton owners who excel in tournament competition with cold, hard cash. And our involvement with B.A.S.S. and ESPN through the Bassmasters Classic and B.A.S.S. Federation circuit puts us on the cutting edge in today's high-stakes tournament game.

But it's the men and women who build Triton Boats who are the true innovators, for their dedication to quality and unrelenting pursuit of excellence is unprecedented in the fishing boat industry. All of us at Triton welcome you to the pages of our 2004 Catalog. Please visit your nearby Triton dealer for a closer look at our latest bass and walleye boats, and to discover all the benefits of Triton ownership. We'd be proud to have you on board the Triton team!

PHASE 1

Multi-Level Innovation...A Triton Exclusive

Angler input

Design & Development

Right from the start

At Triton Boats, we emphasize **innovation** at *every* level of construction in order to bring you the most advanced fiberglass boats on the water...state-of-the-art fishing machines designed to give you the **winning** edge.

Every Triton boat begins with input from anglers...members of our Pro Staff *and* amateurs alike. When you become a Triton owner, we consider you a member of our Research and Development team, and **your** ideas and suggestions for refinements and innovations are always welcome.

Our Engineering staff translates ideas from anglers into boat designs that are fine-tuned and eventually translated into a prototype. Only after *endless* hours of on-the-water testing and fine-tuning is the resulting design considered **worthy** of joining the Triton family.

Prototype Creation

Testing & Fine Tuning

Triton exclusive performance Vortex Hull

Triton's legendary performance and soft, dry ride can be attributed in great measure to our Vortex hull. This radical design features a concave pad running down the center that eventually flattens out toward the transom. The concave area gathers air and funnels it back toward the running pad. Mixing the air with the water helps break the surface tension the water has with the bottom of the boat. The result is a more slippery surface, greater speed and more efficiency.

The concave shape of the hull acts like a slalom ski to significantly enhance the turning and handling characteristics of the boat. Water does not compress well, air does. When a Triton boat contacts a wave, because of the concave shape at the impact area, the Vortex hull compresses "air" instead of water to greatly soften the impact of re-entry. If it feels like you're riding on air in a Triton, it's because you are!

Concave pad means reduced drag, increased speed, improved fuel economy and softer re-entry

Triton's Unique 'Dry Chine'

Our Vortex hull features a unique "dry chine" with a double radius. When running at full throttle, this chine is completely out of the water. But back off the throttle and it re-enters the water to add an extra 4 inches of chine width. This design deflects spray away from you and your passengers when running through rough water, and adds exceptional stability to the boat when fishing.

Hand layup makes the quality difference

In fiberglass boatbuilding, there's no substitute for hand laid construction. Many boat manufacturers use a machine called a "choppergun" which sprays chopped fiberglass and resin into the hull, but that's not good enough for Triton. Instead, our experienced layup team places fiberglass mat in the mold by hand, then permeates it with premium AME 1000 resin, following a precise schedule dictated by our engineering department. This hands-on approach assures a perfect resin-to-glass ratio and a uniform hull with no thick or thin spots, your guarantee of extraordinary structural integrity.

Superior Stability

Unique "fishbone" design includes up to a dozen composite-cored Fiberglass Cross Members bringing the 2 full-length stringers and center stringer, these tie the port and starboard sides of the boat together to eliminate deck and hull twisting.

Triton's revolutionary stringer system

The backbone of every unibody-built Triton Boat is our amazing Zero-Flex Stringer system. Many competing brands use wood stringers encapsulated in fiberglass. Triton uses a one piece composite and fiberglass stringer system for unparalleled strength and rigidity.

Precision matched stringer and hull

The Zero-Flex Stringer system is molded to precisely mate with the hull laminate and has over 290 lineal feet of surface bonded to the hull as part of our Uni-Body construction. That's nearly a football field's worth of total stringer length in the Tr-21's hull. Triton's exclusive design integrates foam boxes and additional longitudinal side stiffeners (used on our longer models) into the stringer, and supplies a conduit for adding foam flotation to the hull. Our stringer is engineered to fit the exact contour of the bottom, eliminating "wide open spaces" between stringer and hull that can lead to structural failures in our competitors' boats.

Foam flotation exceeding U.S. Coast Guard standards

At Triton, your safety is our #1 concern, from our revolutionary Res-Q retractable boarding ladder to the upright and level foam flotation that's integral to every boat we build. Our fiberglass stinger is injected with foam and also has special foam boxes designed in for the utmost in boating safety. Our generous use of foam exceeds U.S. Coast Guard standards and also serves a sound-deadening function so your Triton is extraordinarily quiet when under power.

The Tri-Core story

Wood-free Tri-Core Composite material in key areas can never rot

Polyurethane resin chemically bonds multiple layers of fiberglass core

Triton has made composite construction the **gold standard** in fishing boat construction. Many fiberglass-fishing boats are built with wood in strategic areas such as the stringer system, transom, deck and floor. Wood is an organic material that can *rot*, leading to costly structural failures. But there is no wood in a Triton boat. Many boatbuilders are currently hopping on the composite bandwagon, *but not all composites are created equal!* Only Triton uses Tri-Core composite material, a super-strong polyurethane and fiberglass structural core material that can **never** rot. It bonds chemically with fiberglass and resin and is totally unaffected by climactic changes. Structural tests show Tri-Core to be *lighter* than wood, yet *stronger* than most wood/fiberglass laminates.

200 tons of pressure is used to fuse materials

PHASE 2

Multi-Level Innovation...A Triton Exclusive

Innovation from start to finish

Innovations such as our cavernous rod lockers, oversized dry storage boxes, livewells, PALS system, revolutionary Res-Q retractable boarding ladder, new wider seats and new optional shock absorbing seats are some of the elements that **separate** Triton from the competition. Triton fishing comfort and innovation have to be *superior* in order to keep pace with Triton's **legendary** performance, cutting edge look and dry, comfortable ride.

Optional SAS shock-absorbing seat bases

Our optional SAS seats feature shock-absorbing bases for the smoothest possible ride in extreme water conditions.

Seat Shell and Molded Foam

Work together to provide ergonomic comfort and spinal support.

Spring Grid

Flexes with the coil springs and supports the seat foam. Continually adjusts for circulation and comfort.

Quad Spring Suspension

Provides comfort and 3" travel for shock absorption. Prevents rider from "bottoming out".

Recessed Bottom Angle

Rounded corners and recessed bottom angle minimize the bottom "footprint". Allows seat to swivel in confined spaces.

No Exposed Hinges

No ugly brackets or fasteners to pinch or abrade.

Side Cut-Away

Provides ventilation at lower back for cool comfort.

SAS comfort is dynamic...

Molded foam for SAS Seat Pan is thicker at sides to give larger boaters extra support, and "center" smaller boaters in the middle of the seat.

The finished boat is tank-tested to make sure all plumbing and electrical components are functioning perfectly.

Rear storage modules are extra-deep with supersized openings

Exclusive PALS systems allow you to pre-load up to 22 tackle trays for the ultimate in tournament fishability and versatility.

New wider seats

Driver and passenger seats are extra-wide and densely padded for exceptional comfort, and feature molded foam that resists water retention.

Extra-strong tempered aluminum box lids won't warp or crack

Front storage module with P.A.L.S. system

Massive front storage module

Triton's deluxe bow panel can accommodate recessed Lowrance LCG Fish Finder and features anchor, courtesy light and engine trim switches.

Ergonomic recessed area for trolling motor foot pedal provides all-day fishing comfort

The front deck of our new X Series, Tr-196 and Tr-186 boats features a recessed area to accommodate the trolling motor foot pedal; this greatly alleviates operator fatigue as well as leg and back pain by allowing the angler to keep both feet level with the deck while steering the trolling motor.

A Deck You Can Depend On

Our deck is designed for maximum strength. It features four transverse bulkheads, which tie into the hull in true unibody fashion, thereby enhancing the deck's structural integrity. Deck and hull are chemically bonded with automotive strength structural adhesive and fiberglass material. The result is a rock-solid construction guaranteed to last a lifetime!

Res-Q retractable boarding ladder – a real lifesaver!

For 2004, Triton's most important innovation is our exclusive Res-Q retractable boarding ladder, standard on our X-Series boats and other selected models. This revolutionary safety and recreational device deploys quickly and easily from outside or inside the boat, and allows a person in the water to board the boat without outside assistance. In recognition of this important boating safety advancement, Triton was recently awarded a Special Life Saving Award for Innovation from the National Safe Boating Council.

Flush Mount Dash for a cleaner look and easier viewing in all light conditions

Oversized racing gauges for improved readability. (X Series shown)

Ergonomic Floating Consoles

Our stylish and functional floating consoles have maximum kneeroom and legroom.

Strategically Placed Fuel Cell
Fuel cell mounted mid-ships for better balance and improved 'holeshot'

Huge rod boxes with openings to match

Oversized rod lockers are extra-deep for maximum capacity, and designed to channel water away from the interior to keep your gear dry. We've supersized the openings so it's far easier to access and load your rods and than in competitors' boats.

Triton's Unique Livewell System

New for 2004! We've *totally* re-engineered our livewell system in the X-series to make it the most effective "life support system" for gamefish available on **any** fiberglass bass boat. Twin live-wells carry a total of 42 gallons to provide superior fish carrying capacity. Next, we added a shrouded overflow to minimize water loss from "sloshing" when the boat is underway. The re-circulation systems feature T-H Marine's Max-Air systems that inject air into the livewell water-flow *even* as you are running.

Triton bass boat live-wells do **not** use the troublesome cable controlled drain-valves to drain the live-wells. Nearly all Triton models have a pump-out system that will quickly empty the water from the well. Eliminating drain-valve controls *means* no broken or bent control cables, no loss of live well water at unwanted times due to sand or contamination in the valve, and no constant maintenance and cleaning. Triton also uses separate aeration and re-circulation pumps instead of a one-pump system that uses a valve to switch from "livewell fill" to "livewell re-circulation".

Find out how Triton leads the way in Owner Benefits!

Join the many successful pros
and weekend anglers that have
already chosen Team Triton!

OWNER BENEFITS

It's easy to choose a Triton boat because of its
tournament fishability, hot performance and cutting-edge
design and engineering. But there are even more reasons
why you should join the Triton team!

*The best warranty
in the fishing boat
business. Period.*

Triton's Limited Lifetime Warranty

Triton's superior materials and
construction methods allow us to
extend a Limited Lifetime Warranty on each of our fiberglass boats
to the original owner. This warranty **includes** the hull, stringers and
transom. These same items are also warranted to a **transfer** owner
for a period of 10 years from the original date of sale to the original
owner. For complete details on our Limited Lifetime Warranty, see
the back cover of this brochure.

Plus, there's a 3-year warranty on component parts!

In *addition*, every Triton fiberglass boat is
covered by a 3-Year Warranty on factory-
installed items including instrumentation, boat
wiring harnesses and switches, fuel tanks, deck hardware, boat
lights, plumbing components (aerators, bilge pumps, hoses,
clamps and fittings), steering head and cables, surface temperature
gauges and depth finders.

*You'll love Triton's
"Family Style"
customer service!*

Corey Schmidt, one of our
customer service specialists

When you become a Triton owner, you're entitled to our fast, friendly "Family
Style" customer service. Earl Bentz and the Triton team are fishermen just
like **you**, and that **includes** our friendly customer service representatives.
They'll handle any questions, concerns or comments you may have about
your Triton boat promptly, courteously and completely. Whether it's a
question about engine height or prop selection, ordering a part, or a
warranty issue, you'll immediately experience the difference Triton's "Family
Style" customer service will make to your total boating **satisfaction**.

Take comprehensive protection to the next level!

Triton
BOATS by Earl Bentz
Protection Plus+

Triton Protection Plus means total peace of mind.

The **ultimate** protection package is now available for your Triton boat!
Experience the peace of mind that comes with *knowing* your Triton boat,
engine and trailer are protected by the boating industry's strongest
warranty! Triton **Silver** Protection includes the hull, engine and trailer.
Triton **Platinum** Protection extends coverage to include most factory-
installed components. See your Triton dealer for details, or visit our
Protection Plus website, www.tritonprotectionplus.com.

OWNER BENEFITS

*Triton Gold is
back and bigger
than ever!*

Freshwater AND saltwater trails targeting bass, walleye,
crappie, kingfish, redfish, and even speckled trout!

Nearly 2000 sanctioned events; thus almost \$2 Million in potential cash!

Triton owners have a number of reasons to applaud their choice
of fishing boats exceptional quality, innovative features,
outstanding performance, unmatched warranty and now one of
the most lucrative tournament bonus programs in the business.

Triton Gold will put extra cash in the pockets of Triton owners
for simply doing what they love to do...Fish hard and Win! The
Triton Gold tournament bonus program offers up to \$3,000 to
Triton Boats owners who win an eligible tournament. And, as
though the standard bonus wasn't enough, the winners also earn
the right to capture another \$100,000 under the Triton Gold
Elite Program. Triton Gold sanctions a host of freshwater and
saltwater tournaments targeting bass, walleye, crappie, kingfish,

redfish, and even speckled trout. To receive Triton Gold awards,
you must register (once annually) 14-days prior to participation in
your first Gold-sanctioned tournament of the calendar year. The
Triton Gold registration fee is \$20 for which you'll receive an official
Triton Gold cap and two Triton Gold decals. The rules are simple,
beyond that it's up to your determination and on-the-water
transportation...**don't miss a golden opportunity!**

Get complete details and a registration form online
at www.tritonboats.com, or obtain a Triton Gold
brochure including details and a registration form
from any authorized Triton Boats dealer.

Go online to www.tritonboats.com to see our list of over 50 current qualifying trails encompassing nearly 2000 events!

*It pays to
choose
the best!*

OWNER BENEFITS

B.A.S.S. Federation Alliance Program

For details on the B.A.S.S. Federation Alliance Program, visit Triton online at: www.tritonboats.com

Owning a Triton brings pride, prestige, and rewards to B.A.S.S. Federation states and their members.

Here at Triton, we're great fans of the B.A.S.S. Federation. And to show our *support* for this important group of grass roots fishing enthusiasts, Triton (along with Mercury and Yamaha) is offering an unprecedented rewards program called the **B.A.S.S. Federation Alliance**. If all program benefits were paid, the program would reward more than

one million dollars (cash and product) to the State Federations and their members who own and compete in our brands. Incentives range from **Triton team shirts** (for retail purchases), to **cash awards** for participation in the Divisionals, National Championship and Classic.

Federation Members get FREE Triton Team clothing with the purchase of a new Triton/Mercury or Triton/Yamaha boat package.

In 2003, the Rhode Island BASS Federation won a fully rigged Tr20 boat with a Mercury 200 EFI, worth approx. \$35,000.

Federation Member Jerry Shawver earned a whopping \$30,000 in B.A.S.S. Federation Alliance bonuses for winning the National Championship in 2003.

OWNER BENEFITS

Triton BOATS Owners TOURNAMENT

Congratulations to our 2003 Tr21 draw boat winner Dave Carter

A total of \$1000 was given away this year in our "Ladies' Dash-For-Cash"

It's a family affair!

The 2004 Triton Boats Owners Tournament Revisits Kentucky Lake/Lake Barkley!

The 2004 Triton Boats Owners Tournament will be held June 24, 25, and 26, on Kentucky Lake and Lake Barkley out of Kentucky Dam Village. The 2004 Triton Owners Tournament will again be open to all who wish to participate with half the field competing on day one, the other half on day two, and a finale pitting the top teams from each of the previous days on day three.

This annual gathering of Triton owners is a great way to enjoy your Triton Boat in a fun, family-friendly, yet competitive atmosphere. The 2004 Triton Owners Tournament promises to be bigger and better than ever. Don't miss out on this spectacular event...Sign-up today and come fish with us June 24-26.

There's over 100% competitor payback, drawing for a fully rigged Triton Tr21 X-Series with a Mercury 225 Optimax, great camaraderie, food and prizes for the whole family.

Congratulations to our 2003 champions Brad Riggs and Danny Lowe

X SERIES

**Boats designed to excel
in extreme conditions**

Super-Wide
Front Deck

We've increased the
casting deck's length
and width.

If they held tournaments on farm ponds, you wouldn't need one of these boats! When high winds create surging waves on sprawling tournament lakes, you'll be glad you're fishing in an X Series boat from Triton! They're extra-deep for greater rough-water security, and they're packed with over 30 innovative new features that make getting to your honey holes and executing your game plan a walk in the park.

The innovative tackle storage systems found on Triton's X Series boats are second to none. Each boat comes with nine 3700-style tackle storage boxes, massive front and rear storage compartments and two tournament rod storage lockers, all geared to helping you access your gear faster so you can compete more effectively.

Over 30 new features!

Trolling Motor Recess: Relieves leg and back strain so you can focus on winning presentations.

New Console: Ergonomic floating console with oversized racing gauges for improved readout.

Ladder remains hidden when not in use: When closed, the ladder appears as nothing more than a recessed handle below the rub rail

Res-Q
Hideaway
Boarding Ladder

Triton's New Award Winning Res-Q Retractable Boarding Ladder

"The most important safety advancement since the engine kill switch!" That's what B.A.S.S. founder Ray Scott called Triton's new Res-Q retractable boarding ladder. The National Safe Boating Council agreed, granting our latest safety innovation a Special Life Saving Award for Innovation. The Res-Q ladder remains totally hidden from view until a lock is released, enabling it to telescope from the stern. As it deploys, steps drop into place so you can reboard the boat quickly with no outside assistance. The Res-Q ladder can be deployed from either inside or outside of the boat, making it perfect for recreational boating as well as a groundbreaking safety device.

Triton pro Davy Hite; 2002
BASS Angler Of The Year and
2003 ESPN Great Outdoor
Games Silver Medalist

Professional-level bass tournaments aren't held on hundred-acre lakes — if you hope to win, you need a boat capable of covering thousands of acres of rough water quickly, comfortably and safely; a boat that's as effortless to fish from as it is beautiful to behold. Our new Tr-21X is that boat. Increased freeboard, recessed trolling motor foot control, expanded front deck for superior fishability, and our exclusive boarding ladder – it's pro bass fishing's most perfect boat.

Triton pro Roland Martin;
nine time BASS Angler Of The
Year and 2003 Bassmaster
Classic third runner-up

We put our new Tr-20X Dual Console to the ultimate
torture test: braving the windswept waters of the Gulf of Mexico as an
official boat of the 2003 Bass Masters Classic! Here, the biggest names in
professional bass fishing drove as far as 140 miles each way to their
fishing grounds. The Tr-20X DC was up to the task, providing
unparalleled rough-water comfort and security, and
the most advanced fishing platform in competitive bass fishing.

Our beautiful new Tr-19X Dual Console proves

a bass boat doesn't have to be the size of the Queen Mary to conquer
big, rough bodies of water! It's an easily-towable/storable 19 feet 8 inches long,
but it has all the innovative features of our larger X Series models, including
ergonomic twin floating consoles, expanded front casting deck with recessed
trolling motor station, increased freeboard for greater rough-water security,
and our award-winning Res-Q retractable boarding ladder.

Here's an X Series Triton that's equally at

home whether you're competing in a pot tournament on your home lake, or casting for big bucks in a BASS event on a sprawling reservoir! It's ideally sized for slipping into tight places, yet its higher profile, extra freeboard and legendary hull design take the discomfort out of crossing wide expanses of rough water. Giant casting decks, wide seats, ergonomic console, Res-Q boarding ladder – they're all standard.

TR-SERIES

**The boats
that revolutionized
bass fishing**

Triton's TR Series has long captured the imaginations of bass anglers everywhere with their unbeatable riding comfort, thrilling performance, ergonomic fishability, state-of-the-art tackle storage and groundbreaking composite construction. And like fine wine, they get better every year. No wonder they've been called the ultimate bass boats!

Bass fishermen want to know, "Where can I put all my stuff?" Triton's TR Series addresses storage issues with innovative solutions, like oversized box openings, Redi-Rod organizers and our Pro-Active Lure Storage (P.A.L.S.) system.

A record number of Bassmaster Classic qualifiers...again

Triton's Pro Staff is the best in the business, and they proved it when a record 17 of them qualified for the 2003 Bassmaster Classic. That's after a record 14 Triton anglers qualified for the 2002 Classic. It's a remarkable achievement, and further testament to the tournament-winning capabilities of Triton Boats!

" Might as well go first class!" It's a philosophy we at Triton can relate to, and these luxurious 22-footers prove it. Their extra length and wide beam translate into tremendous deck space, storage capability and fuel capacity. The legendary Triton performance hull turns a 90-mile run to your fishing hole into a walk in the park. With their fluid styling, angler-friendly features and attention to detail, these Tritons command the respect of your competition.

Our Tr-21, first introduced in 1997, was the original Triton boat. With its wood-free composite construction, fluid styling, incredible rough-water ride, hot performance and tournament-level fishability, it became an instant hit with bass anglers everywhere, and revolutionized the way bass boats are built. Today, these classic rigs continue to dominate the competitive bass fishing world, and represent the essence of bass boating to thousands of anglers nationwide. Shouldn't you become a part of that legend?

Boat may be shown
with optional features

You want a boat with spacious casting decks, acres of dry storage, great performance and a velvet-smooth ride. But you also want a boat that can slide between stumps and standing timber to get you back into those hard-to-reach spots where the big 'uns prowl...and fit easily in your garage! A tall order for sure, but our popular Tr-20s do it all. Single or dual console, they're the closest thing to perfection in bass boating.

Pop a 150 to 200 on the transom of one of our Tr-19s, put the hammer down and feel what legendary Triton performance is all about! Then drop the trolling motor and start fishing – you’ll be impressed by its rock-solid stability, and those big, wide decks and roomy storage compartments will win you over to the Triton team. Easy to tow, easy to store, easy to love – and it’s available with single or dual consoles.

Fish like a pro in this affordable Triton.

Our most affordable Triton is the perfect boat for weekend bass outings. It brings you all the fishing and performance features that Triton boats are famous for, in an easy-to-tow, easy-to-store format. Huge casting decks, plenty of dry storage, depth finder, trolling motor – they're all standard. Compare our composite construction, lifetime hull warranty and state-of-the-art fishing features to our competition, then take a test drive to experience firsthand what true Triton performance is all about.

The TX series is the saltwater friendly version of Triton's wildly popular freshwater TR tournament series. TX models are carpet free with non-skid fiberglass lids and decks. Key features include stainless pull-up cleats, saltwater wiring, oversized livewells with knock-out dividers, and live baitwells. The TX models are ideal for "cross-over anglers" who fish for both freshwater and saltwater species and prefer to do it out of one boat.

family want
in a boat, and
then some!*

Imagine casting for bass in the morning, then skiing, tubing or cruising the lake all afternoon! Triton's Fish & Ski models combine the best features of a tournament bass boat and a luxurious ski boat into one exciting package. The sporty ski cabin features racy bucket seats forward and lounge seating aft, plus a tempered glass walk-through windshield and a rockin' sound system. Tournament-style casting decks incorporate aerated livewells and plenty of rod and tackle storage, plus there's a powerful trolling motor and a precision graph to put you on fish. There's no better boat for making lasting memories with your family and friends than a Triton Fish & Ski.

Ski & Fish

Sf-21 & Sfb

Think of it as a luxurious weekend getaway.

The SF21 is also available with a jump-seat cockpit configuration

Our beautiful SF21 is more than a boat – it's a weekend getaway, a first-class ticket to fun in the sun. This spectacular 21-footer features a spacious ski cockpit with walk-through windshield, twin bucket seats, rear lounge seat, floor ski locker and a great sound system. But it also comes loaded with genuine Triton fishing features including twin casting decks, aerated livewell, graph, rod storage locker and more.

For family fun, you can't beat our SF21!

A hot-running alternative
to a bass or ski boat

When mom and the kids want a ski boat and you're dying for a bass boat, here's a solution you can all live with: our beautiful SF19! The ingenious deck plan of this fish-and-ski successfully marries the features skiers and fishermen demand into one beautifully-executed boat. When paired with a 150 to 200 hp outboard, you'll enjoy exhilarating performance whether you're running to your next fishing hole or just cruisin' the lake and catchin' rays.

Sometimes compromise
can be a beautiful thing

Here's a fish-and-ski that combines a host of ski and fishing features into one beautiful boat. The roomy cockpit features swivel bucket seats, concert sound system, spacious bench seating and a walk-thru windshield. When the mood strikes, climb up on the roomy casting decks, drop the trolling motor and cast for bass, crappie or walleye. Our SF18 means pride of ownership and peace of mind — it's an all-composite boat with a lifetime hull warranty.

A fish & ski even a
bass pro could love

The 190FS is available with Triton tournament fishing style windshields

Mention “fish & ski” and most bass fishermen turn up their noses. But our 190FS is a dual-purpose boat that puts the accent on fishing, with its roomy casting decks, Motor Guide trolling motor, graph, rod box and acres of dry storage. Choosing this Triton will make you a hero with your wife and kids, too — it sports a ski cockpit with bucket seats, walk-thru windshield, rear lounge seat and a killer sound system.

Boat colors shown below

Optional side curtains help to protect from inclement weather

Double your family's fun with a factory installed Ski Tow Bar

Teleflex Sea-Pro Hydraulic Steering

Tech 5 keel guard can be factory installed to protect the bow of any Triton.

Trailering & Towing

At Triton, our goal is to match the style and durability of our trailer with that of our boats. Manufactured in a brand new state of the art, automated facility, each welded trailer frame is built with exact specifications to precisely fit the boat. You'll have confidence and peace of mind when towing a genuine Triton trailer; our heritage of performance and quality doesn't stop when you leave the water.

Heads always turn when a Triton pulls in!

Triton's trailer frames are made to cradle your boat and keep its profile low for less wind resistance and easier egress/ingress. See how easy it is to reach from the ground over into a Triton boat when compared to other brands.

Triton trailer frames are made from tubular steel, like the best truck frames are built from. This not only gives your trailer a professionally built look, but a smoother paint finish too.

Most Triton trailers have an oversized 8" dolly wheel for easier maneuvering.

Our heavy-duty bow roller is made of non-marring and super-tough space age polymer to protect your boat when loading it on difficult ramps.

Triton Trailers feature a revolutionary industrial chip resistant primer and tough acrylic urethane paint. The same durable chemistry created for Peterbilt and Freightliner truck trailers. Our trailer paint is air dried for a smoother finish than you get heated paint dryers.

Triton tandem fiberglass fenders feature a convenient center step for easier access to your boat.

Oil bath hubs are standard on Triton trailers and virtually eliminate hub maintenance for the life of the trailer. You can see at a glance that your trailer hubs are properly lubricated and ready to roll.

Disc brakes are durable, trouble-free and standard on most Triton trailers.

Triton Boats have a uniquely designed swing-a-way trailer tongue that is very user friendly. Now you can have the size boat you really want and still keep it in your garage.

Let other drivers know what kind of boat you prefer, even at night. Our lighted Triton Logo step-pads sets your boat apart, with an added measure of safety.

**BlackWall/Galvanized wheel in lieu of Chrome with galvanized frame

Triton trailers are available in a variety of fender materials that can match your personal needs and style.

Fiberglass Fenders
Some Triton Boat models are available in standard colors with matching trailers. However, many have virtually a limitless number of color combinations possible. Single axle or tandem axle custom-colored fiberglass fenders are another way to customize the look of your Triton Boat. These sleek fenders are both beautiful and functional with built-in drive-on guides and recessed lighting. The tandem fenders have a built in center step to help egress/ingress into your boat, a feature not found on some other companies' trailers.

Tr165, Tr175SC/DC and Tr185SC/DC
4" Black painted high-gloss tubular frame (Tr165 has 3") with front and rear aluminum diamond-plate step-pads, drive-on loading guides and 13" wheels with "Oil-bath" wheel hubs. (Tr175 and Tr185 have 14" wheels and tires)

Tr186SC/DC and Tr196SC/DC
4" Tubular steel frame with color matched paint and pin-stripes with 14" Goodyear raised-white-letter tires and chrome wheels. Lighted step pads and built in ratchet style boat tie downs. (Tr196 is standard with disc brakes)

Tr19SC/DC and Tr20SC/DC and Tr19X-Series and Tr20X-Series
Color-matched trailer with curved and lighted step-pads, 14" aluminum wheels and raised-white-letter radial tires. Disc brakes, balanced tires, back-up lights, and a swivel dolly-jack with an oversized wheel are among the many standard features.

Tr21SC/DC and Tr22SC/DC and Tr21X-Series
Tandem axle trailers offer increased carrying capacity and the security of the second axle sets your mind to ease on those trips to distant lakes. More importantly, the boat just looks great on a tandem. Optional feature on the Tr186 through Tr20.

Stainless Steel Fenders
For the ultimate in durability, stainless steel fenders are the best. The choice of many touring pros, these hold up to the grueling miles an angler subjects his rig to. These unique fenders have an "almost chrome" finish that accents and highlights the colors of your boat.

Triton Clothing to fit your active lifestyle

Tell the world you're a proud member of the Triton team with genuine Triton apparel! We offer a huge selection of top-quality shirts, jackets, caps and more, all bearing the distinctive Triton logo.

All merchandise subject to change or discontinuation without notice

Triton is America's most complete family of boats.

Freshwater or saltwater. Fiberglass or aluminum. Fishing or waterfowl hunting. Serious tournament competition or laid-back family fun. Whatever your outdoor pursuit, Triton's got you covered with America's most complete family of boats. See your Triton dealer or www.tritonboats.com for complete information of these exciting Triton series.

Free DVD! For an inside look at how Triton builds America's finest fiberglass bass and walleye boats, aluminum fishing and hunting boats, saltwater boats and pontoons, visit www.tritonboats.com and request our free DVD!

Triton's Affinity Partners Include:

Triton Boats is proud to partner with these fine organizations in an effort to advance our sport.

Aluminum

Rugged boats for your brand of fishing and hunting

Triton's tough aluminum boats have quickly become the top choice of hard-core anglers and waterfowl hunters! We overbuild 'em with extra-thick hulls, wood-free decks and transoms and all-welded construction. High-performance tournament bass boats, crappie boats, walleye boats and duck boats – see 'em all at a nearby Triton dealer, log onto tritonboats.com, or call 1-888-8TRITON.

Saltwater

See why Triton is the hottest name in bluewater fishing boats

Whether you venture far offshore in pursuit of billfish or prowl coastal waters for redfish, Triton has an innovative saltwater boat for you! From the hot performance of our Light Tackle Series to the velvet-smooth ride of our Center Consoles and Walkarounds, serious bluewater anglers choose Triton. To find out why, log onto tritonboats.com, call 1-888 8TRITON, or visit a dealer near you.

Pontoons

Live the good life in a Summit Pontoon

For new dimensions in relaxation and family fun, nothing can top a Summit Pontoon

by Triton! These beautiful boats utilize the finest materials and state-of-the-art

construction methods for enduring quality, and feature the pontoon industry's most

luxurious and well-appointed interiors. We even make pontoons especially designed

for fishermen. Visit a Triton dealer, log onto tritonboats.com, or call 1-888 8TRITON.

Multi-Species & Walleye Boats

If it's big and toothy, you can catch it in these Tritons

It takes a tough boat to catch walleye, pike, musky, and landlocked stripers...a Triton Multi-Species boat! We make a complete line of innovative Multi-Species fishing boats in both fiberglass and aluminum. They're all designed for big water and big fish, with tournament-proven interiors, exceptional riding comfort and awesome performance. Log into tritonboats.com, call 1-888 8TRITON, or see a nearby dealer.
